DETAILED ACTION

1. Claims 1-18 are presented for examination.

EXAMINER'S AMENDMENT/COMMENT

2. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

Drawings

3. The drawings in compliance with 37 CFR 1.121(d) are required in this application because numbers and reference characters not plain and legible in Figures 1-5. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement sheets which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments section, or remarks, section of the amendment paper. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). A replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Art Unit: 2115

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheet(s) must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

REASON FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

The prior art(s) teach(es):

Wen, US patent no. 6,134,155, discloses a data process system comprises a first synchronization circuit is operationally coupled with the write port and is configured to receive the write address pointer and synchronize the write address pointer to the second clock domain; and a second synchronization circuit is operationally coupled with the read port and is configured to receive the read address pointer and synchronize the read address pointer to the first clock domain.

Phi, U.S. patent no. 6,718,449, discloses a system for data transfer between two clock domains, and using a write control signal and read control signal during the transfer data.

However the prior art of records do not teach or suggest, individually or in combination, a bit slice circuit for process a slice of data comprising a master chip is configured to send a synchronized signal to one or more slave chips such that the synchronized signal is received in the second time domain circuit for the master chip and the second time domain circuit in one or more slave chips in the same clock cycle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
